PERSEVERANCE. - The Chinese tell of one of their countrymen, who had been making stronuous efforts to acquire literary information, who discouraged by difficultes, at lenth gave up his books in dispair. As he returned to manual employment, he saw a woman rubbing a crowbar on a stone, on asking her the reason, shore lical she was in , want of a needle, and thought she would rub down the crowbar till site got it small enough. The patience of the aged female provoked him to make unother attempt, and be succeeded in obtaining the cank of the first three men in the empire.

B-It is sustomary, even, at the presentday, in some parts of Northumberland, to place a pewter plateacontaining salt, upon the corps of a decensed person. A candle too, as in Catholic countries, in sometimes added. Salt is the emblem of Eternity and Imortality; it is not diable to decay nor putrelacation liself, and it moreover preserves things that are seasoned with it. The cundle was an Egyptain symbole, of hieroglypic of life, and its use upon the remains of the departed was thus considered to be expressive of an ardent wish that his existence had been prolonged.

Coursesy .- The colored race are said to be remarkable for their natural positeness. Here is a proof. The Baltimore Sun relatest hat a colored man was taken to Wash ington College to have amputation performed on a badly fractured leg. All being ready, professional spectators present, &c., he became alarmed, and declined. He was told his life would be the forfeit if the operation was delayed, to which he stubboraly replied that he would rather lose his life than his leg. The man's resolution was such that the operation was about to be given up when the operator, Dr. Gibson, remarked, somewhat as random - "But, ---," calling him by nave: "you see I have invited severof my this is to witness the operation, and if you are determined to refuse they will be disappointed." The poor fellow turned it over a moment in his mind, and then promptly replied, " Well Mass Gibson, sooner than the gentlemen shall be disappointed, you may take off-the leg.

EXTENT OF THE UNITED STATES- The United States have a frontier of more than 16,0st ordes. We have a line of sea coast of nearly 4,000 miles, and a lake coast of 1,-200 miles. One of our rivers is twice the size of the Danube, the largest river in Europ. The Ohio is 600 miles larger than the Rhine, and the Hudson has a navagation 120 miles longer than the Thames. The Stare of Virginia is a third larger than Engand. Ohio contains 5 139,000 acres more th in Scotland. Newport:

FRIDAY, OCTOBER 8, 1847.

BY O. F. JACKSON, 91-THAMES ST.

Post Orner Appearising.—The organ that does the Post Office advertising in this town, contained a few days since, a brugging article relative to its circulation. The circumstances relative to the bestowal of government patronage upon the paper that does the Post Office advertising for the office in this town, we have been informed, are briefly these. Sometime since, when that paper circulated three times the number of papers it now does, the publisher made a statement that he circulated a certain numbek'of papers, which statement he gave to the Postmuster. The Postmuster requested the other papers to make a similar state ment of the number they circulated, but the publishers of the Mercury and the farmer publisher of the Herald, for some reason, saw fit to make no statement of their circulation, and the Post Office advertising was given to the paper which now receives it, by the Postmaster, who had no evidence that it was entitled to it by law. That the Herald or the Mercury circulate a greater number of papers overy publication than the Post Office organ, no one who is acquainted with the circultion of the respectation. tive papers will deny .- Herald of the Times.

As the Daily Mews is "the organ that does the Post Office advertising" for the towns of Newport, Portsmouth, and Jamestown, we have a few words to say in relation to the above attack-

The Editor of the Herald seems to cotertain an idea (all for effect.) that the circulation of the ' Post Office organ" was three times as large as it is at present, when it obtained the Post office advertising. We linve ho iden that any body believed his. or that the Editor of the Herald does himself. This assertion is what may rightly be termed " a random shot," but we are hap py to say that we are not hit. The circulation of the "Post office organ"-the Daily News, during this week, in This Town, has averaged FOUR HUNDRED AND FIF-TY COPIES PERDAY, and very often we issue SEVEN HUNDRED COPIES CER DAY.

The Herald talks about a circulation of near six hundred. How year? If we are rightly informed, it comes up to within three hundred of that number.

But without any farther discussion in regard to difficulation, we will say that if the Herald of the Times circulates more papers | in this town than the Daily News does," it is were one to the Post office advertising. We say in this fown, because the Post office law says "the letters shall be advectised in ! the paper having the largest circulation in ? the town where the Post office is situated." ! and that the Daily News has the largest circollanes in this town, as well as those ad , ja.mng, we are well satisfied.

"That they (the Herold and Mercury.) are better inclumes of advertising, especially the Herald, cannot be questioned."

Especially the Harold ! " How we ap-

The old excuse, a great press of business, has alone daterred me from inflicting -uponyou a long string of yarns.

We, the public of this groat city, have been in the greatest excitement and suspense concerning our gallant little army in Mexico. Bad news was unticipated, and frars were entertained that a great disaster. was to belall Gen. Scott's command. He has been left, in the Feart of an jenemy's country, surrounded by innumerable bands of guerillas, who have embraced every opportunity of harrassing and annoying him, and Unele Sum has not sent reinforcements fast enough to supply the loss occasioned by his various engagements with the onemy. He has been ordered to advance upon a city containing some two hundred thou- hand, sand inhabitants, baving at his command but about seven thousand men, and in a battle lought beneath the walls of the Capital, in which he proved the victor, though | Perservance. tra-The most prolife source of disease is undoubtedly impurity of blood. And to it no people are more subject than those of this country, from are nore subject than those of this centify, from
the plential and comparatively luxurious diet in
which their prosperity enables them to indulge.—
To parily the blood, and refleve howels from the
unhealthy state produced by that impurity, Brown's
Sarsuparilla and Togeto Hitters are extremely well
calculated: They will enadicate those impure humars which are the source of uncasinose to the system and occusion such deformity when they make their appearance exteriorly. The demand make their appearance exteriorly. The demand for the above Bitters is rapidly increasing in all planes where they have been sold, and there is scarcely a day passes but we have some ordered by our first physicians, for dyspepsia indigestion, weakness of the stomach and limbs, costiveness, general debility, rheatmatism, &c. In fact there is not the least doubt but they are the best afternative now in use for a disordered system. The vegetables, that these Bitters are moinly composed of are too well known to have the least said lutheir favor. Remember in all cases: when you purchase Brown's Sarsaparilla and Tomato Bit ters, to see that the directions are signed by the proprietor, F. BROWN, in his hand-writing, without which none are genuine. For sale by R. J. TATLOR,

From the Boston Davily Warg, of Feb. 12, 1846 Hyperion Fleip.—Those who wish for a value able preparation for the hair, are referred to Mr. Boglo's advertise cent in another column. His Hyperion Fluid, it is supposed, will soon supersede most fluids now in use for the hair, as it is a very superior quality.

SAND'S SARSAPARILLA.—Thousands of persons are heirs of scrofula; they come into the world with the taint in their blood, which, by the time they reach maturity, develops itself in some form or other. All such persons should keep a stock of this preparation by them, if at a distance from any town or city where it may be precured. Nor should they wait for the disease to show itself in ulcers or cruptions but should keep it down by frequent resort to this unrivated unfisciple. The ser is of scrofula, though hereditary in the blood will not germinate while that fluid is under the influence of this powerful detergent, which if administered at intervals, will keep down the hereditary tendency through life. Hyer's Pills. The American Improved Hygeian Vegetable Medicine,

This medicine makes no prefersions to miracu-lous powers, the raising of the dead, or to im-mente and astouding sales daily and hourly, af-ter the most approved method of the times; but hases all its claims upon plain common sense principles, as a shaple AID to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has one deranged or debilitated, and asks simply a faithful trial an a test of its curative properties During the last twenty years it has worked its way into extensive use, wholly upon its own merits, commendation from individual to individual not having been advertised for more than twelve years till within the past few mouths-save occayears till within the past few mouths—save occa-sionally in a journal of which the present proprie-tor is Editor. The increasing demand, however, has measurably compelled greater attention to its dustries, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar pack-

age is almost certain to secure use in every family where it is introduced, where medicine as needed. The undersigned has used it in his own family for more than future years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it,

then. Read, try, and then judge.

Middletown, June, 25th, 1843, Dr. Boardesso

Sir-In answer to your inquiry respecting my Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since of strained my breast and loius in May, 1836, from that time continued to graw worse, when in the full of '39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Huming's Laco in such cases, and was anxious that I should try it accordingly I precured one from you, and since I such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and thattering or palpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to shave myself with comfort, which for many years I have not been abla to do. The piles, which have troubled me for nine years, are mearly cradicated. Dr. Emanue.,
Dear Sir:—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my changing and make the primary or first stages. reison to believe that I was in its last stage; my physician told me so; iny triends told me so; as well did my symptoms, for they were truly abarming; and I felt fully convinced, that unless relief was obtained I must soon be consigned to the narrow confines of the silent grace. But by the timely use of year felnedy. I still live, and again enjoy my former good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am curell. Yours, dear sir, with great sincerity.

Yours, dear sir, with great sincerity IŠAAC J. BEKD.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Bolsamie Lung Jelly—try it.: I have jut its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the real succeed in curing yourself. the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement if your cure.

MY EAU LUSTRAL HAIR RESTORATIVE

MY ÉAU LUSTRAL HAIR RESTORATIVE. This universally approved and admired article, tree from ardent spirits, pungent essential oil, and other destructive materials, cleans the hair expeditiously, rembers it beautifully bright, and imports to it the delicate fragrance of the flowers. Hair trashed, with this Extract, soon become pleasingly soft and luxuriant in its growth, and it will pasitively bring in new hair on bald heads by its use; and hair, that has been made harsh, and is turning bray or falling out, by the use of spirit or other ingray or falling out, by the use of spirit or other improper properations, will soon be restored to its natural color and brilliancy, by a few applications of the Ean Lustral.

It is a preservative against baldness, and an arbilible cure in all affections of the skin on the head, as dandruff and for proventing the falling off of the hair and turning gray.

Evidence.—Nature is an inexhaustable mine, in which experience and study will always find room

to excavate; it is that source alone which produc-es all that man calls invention, and which he would do better, perhaps, to name adaptation.
